

Vinal Tech CJPS

Community Service Award

The Criminal Justice and Protective Services Program Community Service Award is awarded to any member who contributes half or more of their community service hours to program related events or any member who contributes hours above and beyond the required amount. CJPS Student Z.J. falls into both of these categories. During the summer of 2019, the CJPS program underwent a significant transition from a classroom to large shop space. This transition required hundreds of hours of volunteer help for trash removal, painting, furniture moving, decorating, and building. Several students stepped up to help with the endeavor during the hot summer months and because of these students, CJPS had a permanent home by the start of the 2019-2020 school year. This would not have been possible without the help of Z.J. who contributed an astonishing **44 volunteer hours**.

Vinal Tech CJPS is proud to recognize Z.J. and present him with the Community Service Award. Congratulations Z.J., keep that passion for helping others!
